Featured Products in This Issue

Fiber-Optic Aligning Systems

Aerotech, Inc.

Request Info

Visit Website

Aerotech's FAe series high-performance photonics aligning systems incorporate best-in-class drive and state-of-the-art axis control technology. Their modular design permits the selection of the number of axes, the distance to be travelled and the amount of payload. They are available with three to six axes of motion, noncontact linear motor drive, 1-nm resolution, turnkey drive and control electronics, and more.

HighLight D-Series Up to 10 kW

Coherent Inc.

Request Info

Visit Website

HighLight D-Series delivers high power and an increased range of "smart" output beam shapes, making it the ideal source for laser heat treating, cladding and welding applications - all at faster speeds, greater deposition rates and larger areas. The latest of this series, the HighLight 10000D, provides up to 10 kW of power at 975 nm.

Products for Microscopy

Applied Scientific Instrumentation, Inc.
