2017 Photonics Buyers' Guide

Considered the standard reference of the photonics industry since its first printing in 1954, the **Photonics Buyers' Guide** offers engineers, designers and buyers quick, easy access to information about companies and products in all segments of the industry worldwide.

You'll find descriptive profiles, products and contact information for over 4000 companies – and all listings are **100% verified annually**. Companies are indexed alphabetically, geographically and by products and services offered.

The 2017 edition also includes 130 pages of technical articles from the **Photonics Handbook**.
