

# PHOTONICS MEDIA THE BOOKSTORE

**ONLY A FEW DAYS LEFT! SPECIAL OFFER ENDS AUGUST 25TH!**

## Optical Fabrication

*Optical Fabrication* is a new book for anyone working on or interested in the methods, materials and measurement techniques used in modern lens and optical component manufacturing.

This article collection will serve as an introduction or update, moving beyond methods and materials to design and complex modern applications. Also included are a handy list of useful tables and a dictionary of terms used in the book.

This 319-page volume includes 40 articles that range in scope from the fundamentals of optical fabrication to technology developments from the past decade.

**ACT NOW and SAVE! Order by August 25th and use Coupon Code [AUGUST2017](#) to save 15%.**
