Featured Products in This Issue

Motion for Test/Inspection Aerotech, Inc.

[Request Info](#)
[Visit Website](#)

Aerotech motion systems' unmatched precision, accuracy and durability have made us a leader in test, measurement and inspection applications across a variety of industries. Our catalog, Motion and Automation for Test, Measurement and Inspection, presents motion capabilities in applications as diverse as sensor testing, surface profiling, nondestructive test, and semiconductor inspection and metrology. Aerotech expertise includes systems for vacuum and cleanroom environments as well as integrated automation and data acquisition for a complete solution.

The New Goldeye Allied Vision Technologies GmbH

Allied Vision Technologies' all-new Goldeye short-wave infrared camera (SWIR) provides best-in-class image quality through its compact, fan-less design, full 14-bit low-noise imaging and onboard image correction. Its GigE Vision interface, Power over Ethernet, comprehensive I/O control options, multiple fixation facilities, and more allow for easy integration into industrial and scientific imaging systems.

Fiber Coupled Laser Scanner Applied Scientific Instrumentation
