A Smart Handheld Raman Spectrometer with Cloud Data Platform and AI Deep Learning Algorithm

CloudMinds's XI™ is the world's first cloud AI based handheld Raman spectrometer with 785nm laser excitation. Being fully integrated with Cloudminds's Data A1 smartphone, operation of XI™ is fully automated with an intuitive android app suitable for novice users. XI™ can either run as a stand-alone unit or on clouds when connected via cellular link/WiFi/Bluetooth. The cloud data platform allows users to share all data and to synchronize instant updates on all devices. XI™ is the first to adopt AI deep learning algorithms, enabling faster data analysis with high accuracy even for mixtures.
