

Vision spectra

WHITE PAPERS & APPLICATION NOTES

Edge Learning

Easy to use edge learning makes AI powered solutions accessible to everyone – beginners and experts alike. Processing takes place directly on the vision system and it can be set up in minutes without any additional technical expertise. Simplify defect detection, assembly verification, classification, and other similar applications. In this white paper learn more about this innovative technology and how it can help you achieve higher product quality, expedite deployment, and lower operating costs.
