Illumination for Law Enforcement, Logistics, Safety, and Security

Today's fast changing world requires an ever-increasing level of sophistication in security applications. Illumination is a crucial component of any system employed to discover anomalies in scanned objects or find minute variations that could cause a product to fail. And the LED has injected great technological advances in a wide range of security systems. LIGHT BEYOND VISION: Illumination for Law Enforcement, Logistics, Safety and Security reveals how LED lighting is upping the ante on ensuring our safety.
